It's been 1 year and 2 months since I've entered middle school.

While every one was busy forming groups of their own kind ...

There was one guy who never bothered to do such.

His body language screamed "Don't bother me". He simply took naps after naps.

I sensed a similarity from him, the fact that both of us chose to do nothing instead of something.

Blame my eyes for catching him in my sight.

My other senses demanded me to know more about him.

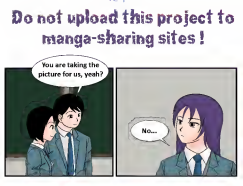
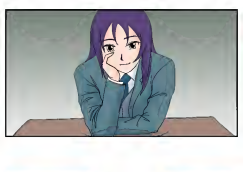
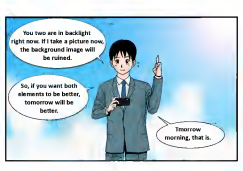
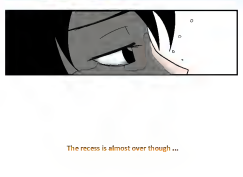
Do not upload this project to manga-sharing sites !







You two are in backlight right now. If I take a picture now, the background image will be ruined.
So, if you want both elements to be better, tomorrow will be better.
Tmorrow morning, that is.



The recess is almost over though ...

Why are they just leaving?

You sleep even outside ?!

쿠웨 쿠웨

Well, this isn't good...

I have no other choice ... !

I will have to do this the hard way !

Hey

Hey !

What now....

What is she trying to take a picture of here?

Let's pretend. I can't let him find out.

Do you have a business with me?

Ah..., yeah !

If you don't mind ...,

Can I touch that once ?

No, you can't. It has no film.

Your name is Yun Ji-Ah, right? We are in the same class. Don't you recognize me?

Figured as much.

I am sorry. I don't remember faces well...

I can't let him have this camera right now.

Very well, remember me and my name is Kang Whar!

Should I propose a silly deal?

Don't we have a math homework due tomorrow?

Huh? Yeah..., I think so, why ?

If you do the homework for me, I will let you touch it and even use it once.

Okay !

You mean that? I mean you really are going to do the homework for me ?

I didn't think it'd be this easy...

Yes, I'd love to do that for you!

believe or not. I dreamt about our high school days last night.

If you didn't take a picture there..., we'd simply ended up as mere classmates.

A-Ah, no girls will talk first unless she has something in her mind.

What does that mean? You wanted to take a picture.

Are you absolutely sure that I meant to take a picture there?
